DANCE THE DREAM AWAY.

If life's a dream-a riddle, As still the sages say, We'll keep time to the fiddle And dance the dream away!

In winter we'll go singing, And reap the rose of June, But still this word comes ringing: 'The music stops so soon!'

III. Yet while the time is racing To meet another day, It's Joy that we're embracing,

So-dance the dream away! -Atlanta Constitution.

SAVING GRACE OF DOLLARS.

the country as this one.

Bank Figures Show Antics of People's Money in Late Panic.

Statistics of savings deposits furnshed in a recent bulletin issued by A little more toil than rest, the comptroller of the currency are interesting and suggestive as to the A little more grief than jest, manner in which the recent indus-trial depression has been met by the A little more pain than mirth, working people who constitute the A little more trial than cheer—majority of savings bank depositors. And this is the way of the earth, The shrinkage in deposits throughout the country from June 30, 1907, to June 30, 1908, was only fourfifths of 1 per cent. The savings banks of New York showed a loss of 1.2 per cent. Pennsylvania banks and Massachusetts banks showed a gain of nearly 2 per cent, the total gain of New England banks being \$28,000,000. In Ohio and Indiana the loss is trifling. In Illinois there was a loss of 7 per cent and in Iowa the loss was nearly 2 per cent. The total number of depositors in the country increased. The statistics suggest that the loss of wages has not forced a draft upon accumulated savings to any important extent. In the majority of instances, economy in manner of living has been resorted to and the savings fund has been kept intact. Needless expenses have been eliminated from household budgets, clothing has been forced to do an extra service and a greater value has been extracted from every dollar of wages earned. The country has not been impover shed. Its reserve resources have no been sacrificed. Extravagance in living and in business has been checked. A period of economy has been enforced. If the gradual recovery which is now in evidence continues without unforeseen disturbance, the final verdict upon the experience of the past twelve months will recognize its salutary effect .-Boston Herald.

In the course of his sermon a preacher in a rural district used the word phenomenon. This word caused one of the members some trouble, for he was unable to attach any meaning to it. Finally, he determined to seek an explanation from the minister, and at the close of the service approached him on the subject.

"What did you mean by that there long word yer used in yer sermon?"

CURES S.S. CHRONIC ULCERS

Any chronic ulcer shows an unhealthy and impure condition of the blood. It is a diseased condition of the flesh at that particular spot, caused and kept inflamed and irritated by a continual discharge into it, of unhealthy matter from the circulation. No treatment can have any curative effect except a medicine which will renovate the blood and entirely remove the cause. Salves, washes, lotions, etc., are sometimes helpful in reducing inflammation, cleansing the ulcer, or perhaps lessening the discharge, but such applications do not reach the blood where the discase germs are located and can never effect a cure. S. S. S. goes down into the circulation, drives out all impurities and morbid matter, and by nourishing the flesh with rich pure blood causes the place to heal naturally and permanently. S. S. S. does not make a surface cure, but by beginning at the bottom, and S. S. S. does not make a surface cure, but by beginning at the bottom, and rebuilding broken-down tissue, and supplying healthful, healing qualities to the blood, causes the place to fill in with new, firm flesh, while it steadily but surely effects a permanent cure. FARM TROUBLES

RURAL RESIDENT TELLS ABOUT HIS EXPERIENCES.

No Fun to Bathe in Tin Washtuh With a Sharp

A farmer who lives west of Dodge City, Kan., says in the November American Magazine:

"I am a farmer. I live on a 200acre place. I am the only one of five children to stick to the farm with the old folks. I am getting well on toward 40 years old. I don't mind telling you that I'm plum sick of it, too.

"Year after year I've tugged along here in these fields of ours, listening to the whistle of the old passenger trains morning and evening, and wondering if, some time, I wouldn't just drop the lines and go to the station and get on the train and go to the station and get on the train and go to the away and never come back. But then I get to thinking it over in the night, when I'm too tired to sleep and my class sting.

Cans transported it and used it effectively last year in the east. The Kentucky Anti-Tuberculosis association with headquarters in Louisville, is in charge of its introduction in this city and in others throughout the central and western part of the state, while the Lexington association will be in charge there and in the east.

Knew More Than the Expert When it Came to Local Conditions. "We were sitting around the stove

in the bar of the little hotel in a Maine town," writes an electrical salesman in the Electrical Review, when the electric lights flickered and went out.

"I had been selling electrical supplies to the little lighting companies for several months, but I had never heard this particular idea expressed

"I laughed long and loud, and was all the more amused when no one joined me.

"After they had lighted a big kerosene lamp I proceeded to explain to the crowd that incandescent lamps can't be blown out by the wind. When I had finished, the old rube who had commented on the lights

" 'Look here, young man, if you knew a little somethin' about local conditions and about your own busness, you'd know that the wires in this township are hung up slack on the poles in some places and that they get to slatting in a good stiff breeze. How we dislike to accept a favor from a person we dislike.

There is no way of making lasting friends like "Making Good"; and Dr. Pierce's medicines well exemplify this, and their friends, after more than two decades of popularity are numbered by the hundreds of thousands. They have "made good" and they have not made drunkards. A good, honest square-deal medicine of known composition is

Dr. Pierce's Golden Medical Discovery.

It still enjoys an immense sale, while most of the preparations that came into prominence in the earlier period of its popularity have "gone by the board" and are never more heard of. There must be some reason for this long-time popularity and that is to be found in its superior merits. When once given a fair trial for weak stomach, or for liver and blood affections, its superior curative qualities are soon manifest; hence it has survived and grown in popular favor, while scores of less meritorious articles have suddenly flashed into favor for a brief period and then been as soon forgotten.

For a torpid liver with its attendant indigestion, dyspepsia, headache, perhaps dizziness, feul breath, nasty coated tongue, with bitter taste, loss of appetite, with distress after eating, nervousness and debility, nothing is as good as Dr. Pierce's Golden Medical Discovery.

It's an honest, square-deal medicine with all its ingredients printed on bottle-wrapper-no secret, no hocus-pocus humbug, therefore don't accept a substitute that the dealer may make a little bigger profit. Insist on your right to have what you call for. Don't buy

Dr. Pierce's Favorite Prescription

Expecting it to prove a "cure-all." It is only advised for woman's special ailments.

It makes weak women strong, sick women well. Less advertised than some preparations sold for like purposes, its sterling curative virtues still maintain its position in the front ranks, where it stood over two decades ago. As an invigorating tonic and strengthening nervine it is unequaled. It won't satisfy those who want "booze," for there is not a drop of alcohol in it.

Dr. Pierce's Pleasant Pellets, the original Little Liver Pills, although the first pill of their kind in the market, still lead, and when once tried are ever afterwards in favor. Easy to take as candy. They regulate and invigorate Stomach, Liver and Bowels.
